

# TimeControl and Deltek EPM

Linking enterprise timesheets with enterprise project and cost management

# Some of our projects

**James Bay Hydro**

**Ontario Nuclear Plants**

**Light Armored Vehicle**

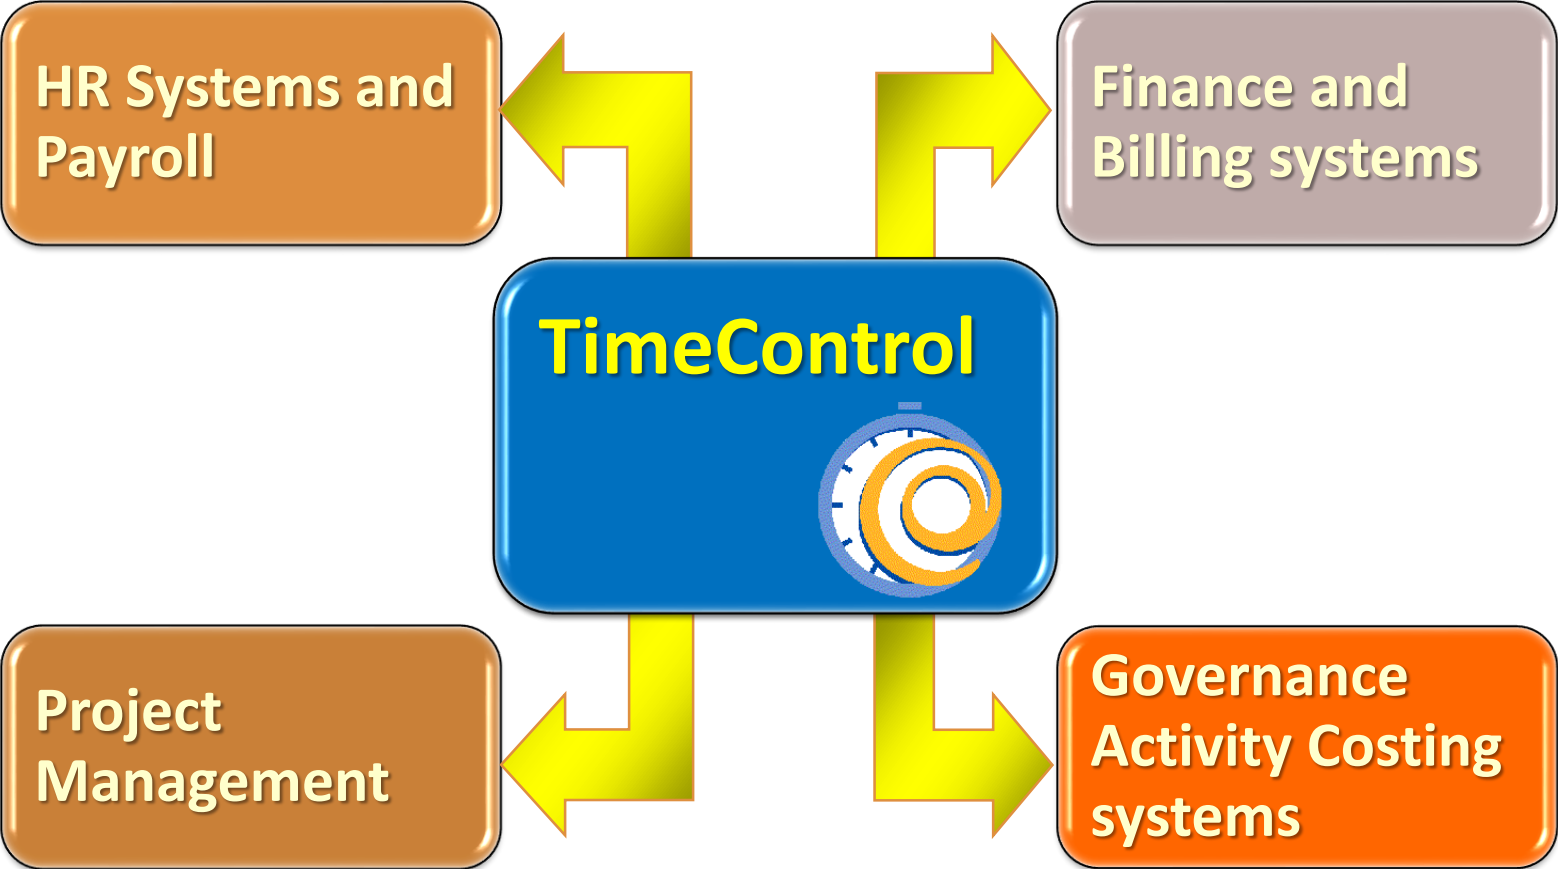

**Hibernia Oil Platform**

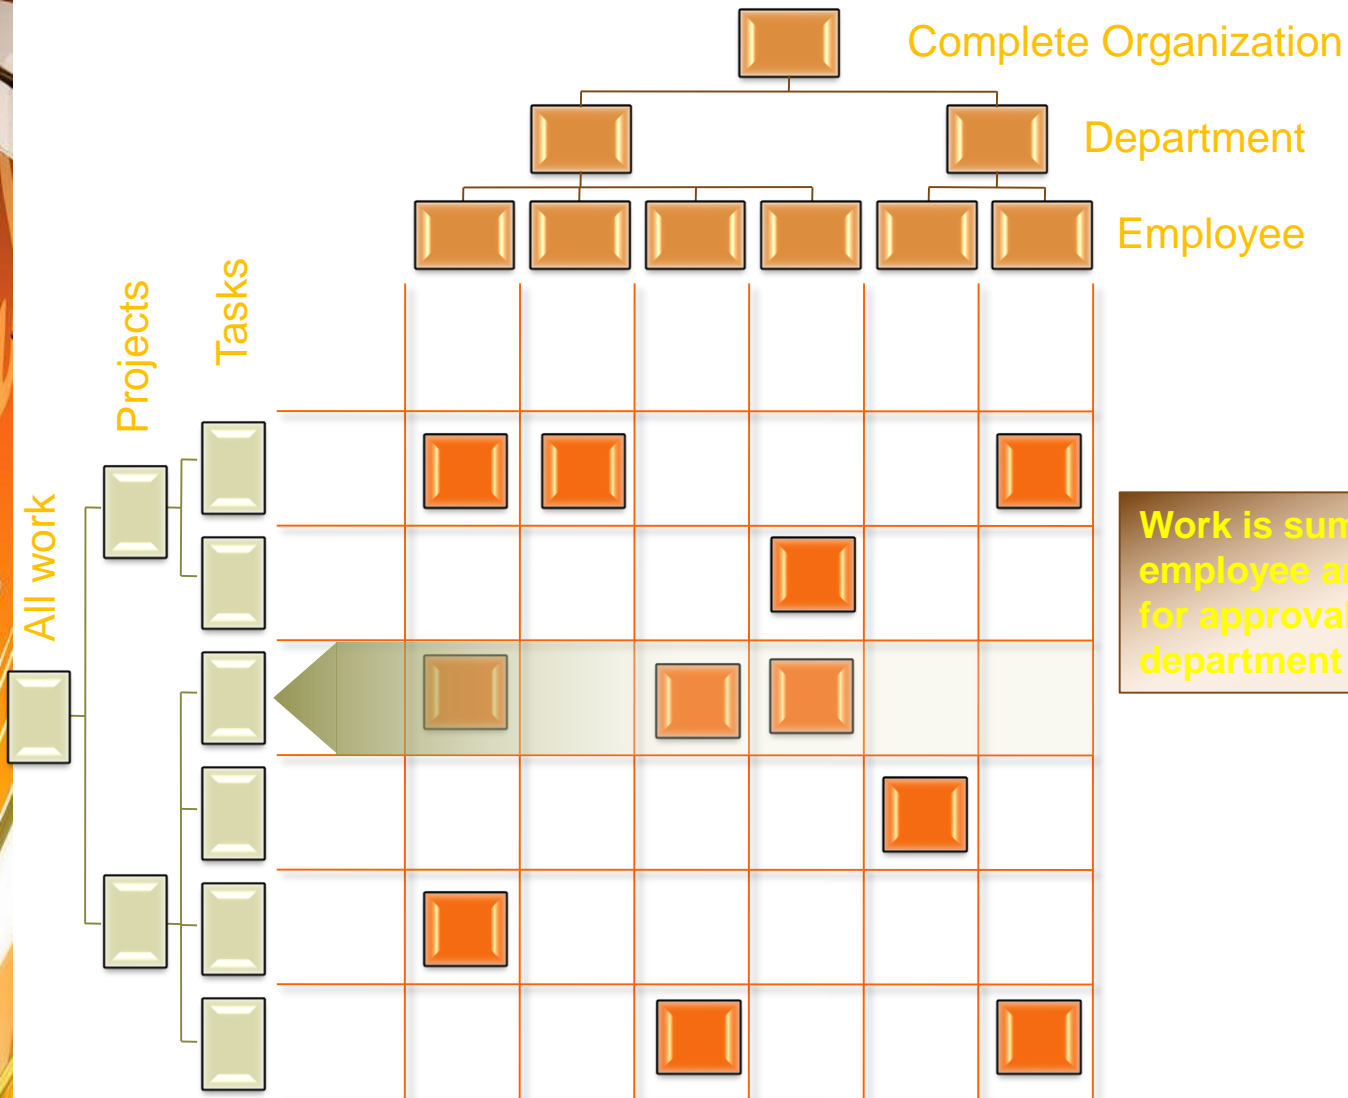

**CF18 Upgrade**

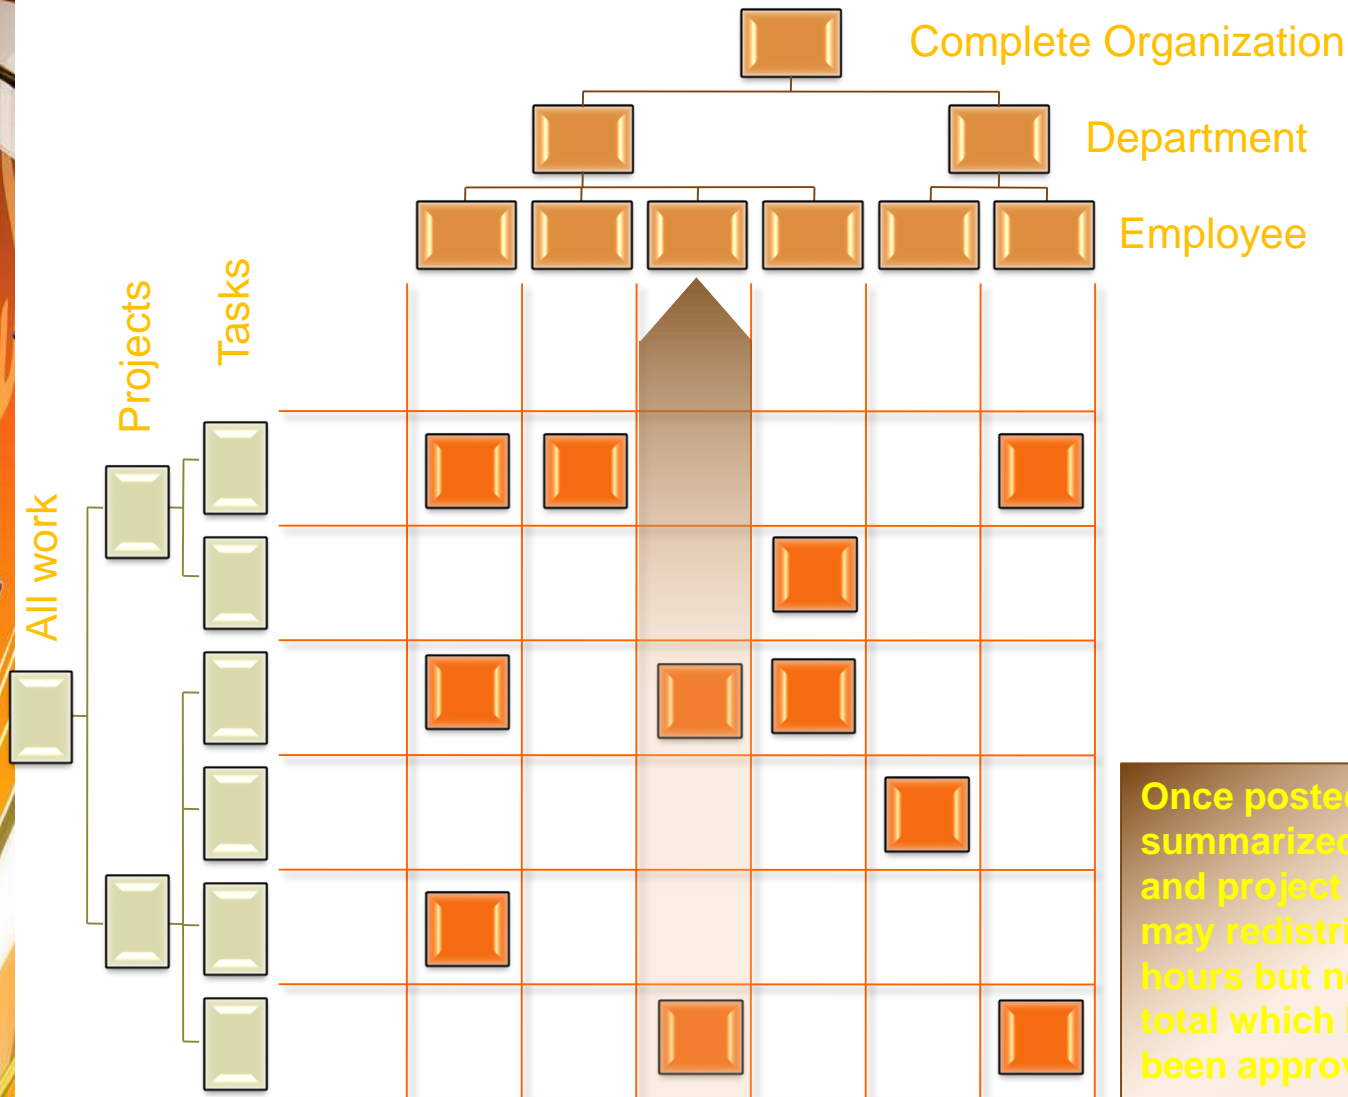

# TimeControl®

# The Matrix Approval Process

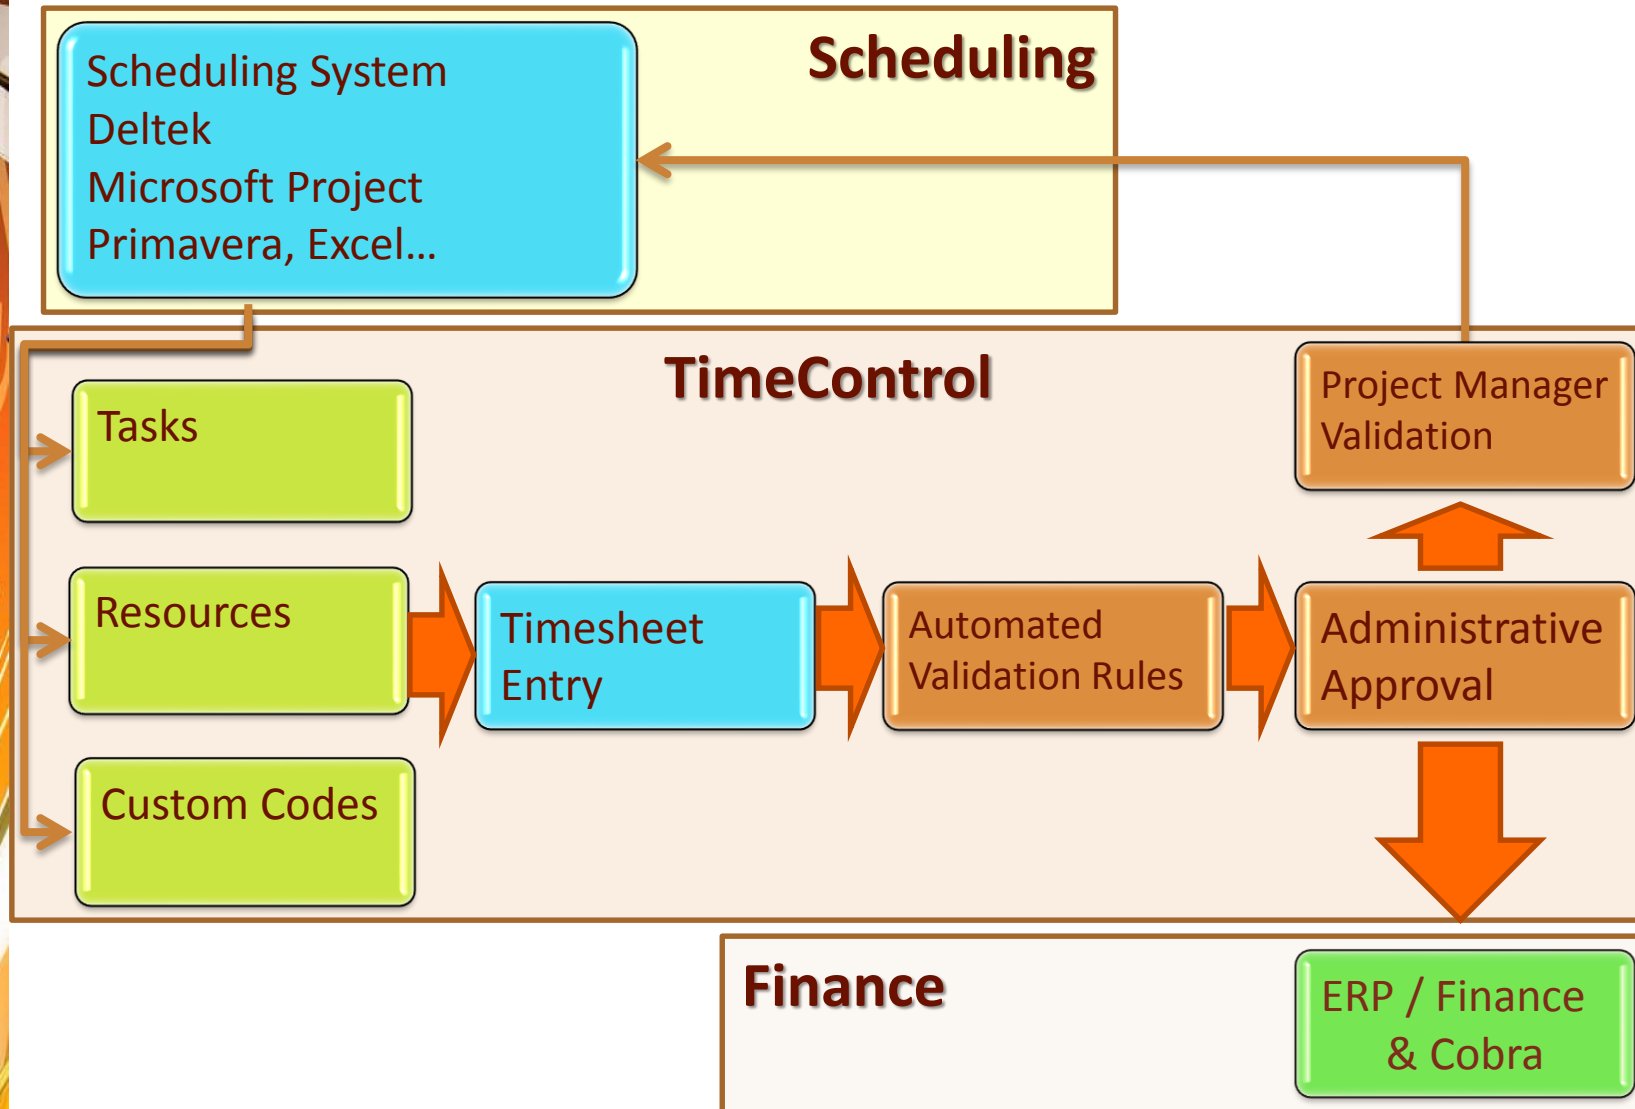

# The Matrix Approval Process

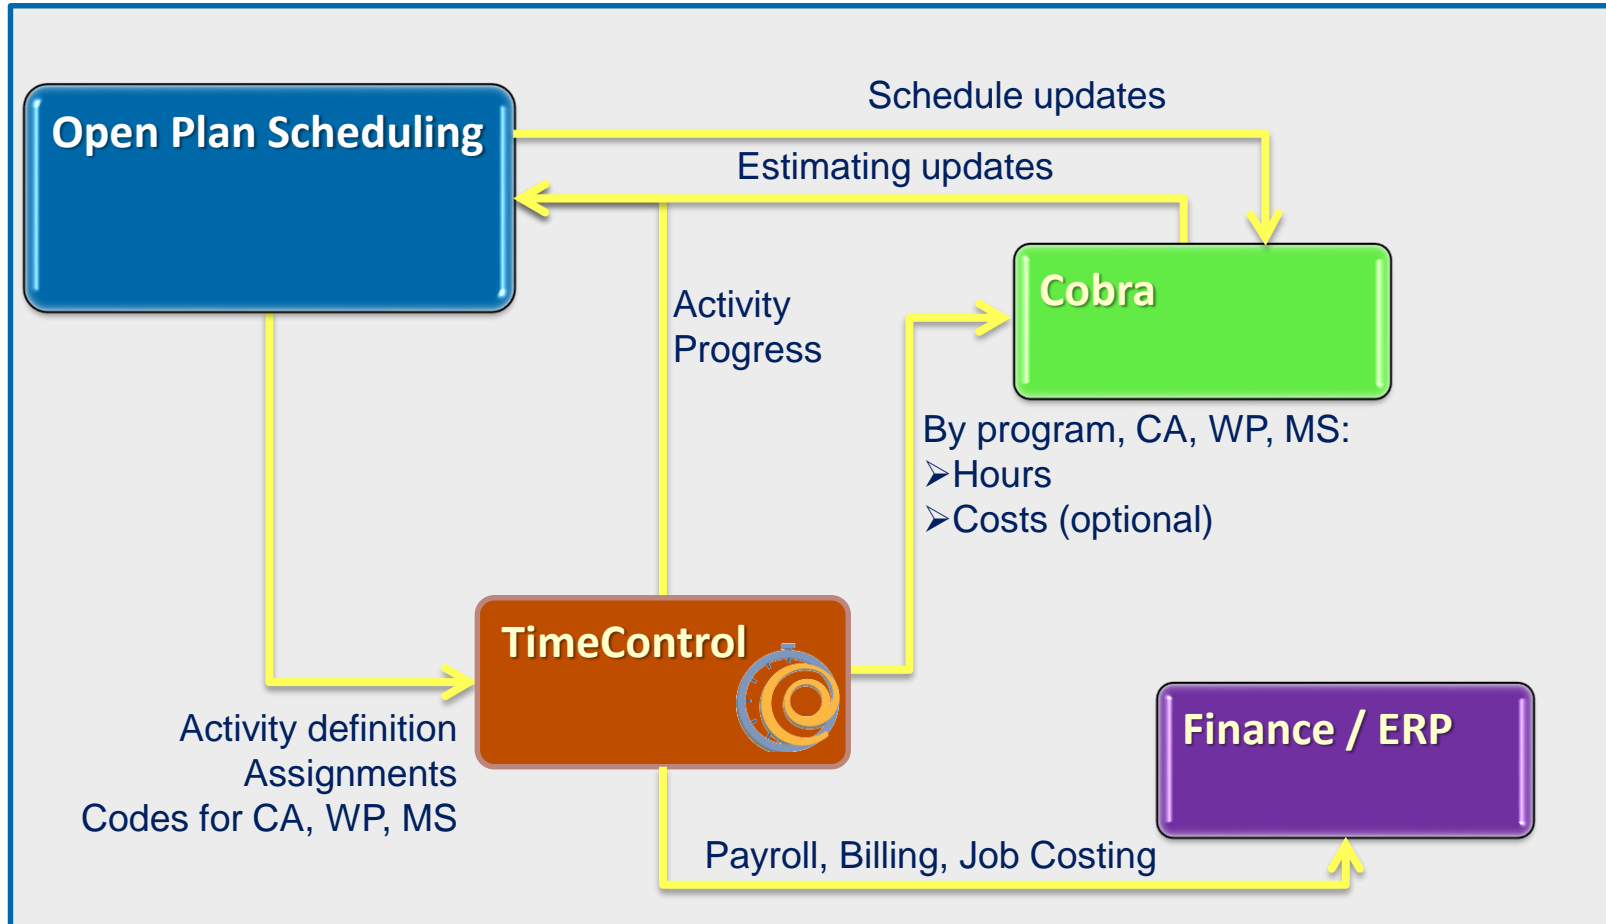

Once posted, time is summarized by project and project managers may redistribute the hours but not change the total which has already been approved

# The Matrix Approval Process

# Linking TimeControl Deltek EPM

# The TimeControl Advantage

- ✓ TimeControl and TimeControl Industrial are already integrated with Open Plan and Cobra

# What is TimeControl Industrial?

- ✓ TimeControl Industrial includes full timesheet functionality for back-office personnel and field data collection function for field personnel to collect:
  - ✓ Crew timesheet entry
  - ✓ Material Consumption
  - ✓ Equipment Usage
  - ✓ Production Accomplished
  - ✓ Extended rates
- ✓ TimeControl is a single system with multiple interfaces to fulfill multiple needs

# The TimeControl Advantage

- ✓ **Unlimited Rates**

TimeControl allows an unlimited number of rates per employee. Each rate maintains nine values. Two of these values are typically used for internal or actual cost vs. external or billing cost.

- ✓ **Project and Non-project time**

TimeControl can track both project items from the scheduling system and non-project items such as overhead types. There is no limit to the number of project or non-project items that can be included.

- ✓ **Unlimited user-defined fields**

TimeControl allows an unlimited number of user defined fields to be added to any table (such as the employee list or task items).

- ✓ **Multilingual**

TimeControl includes a multi-lingual client which includes many languages by default and a module to add your own language translations.

- ✓ **Expense Reporting**

TimeControl tracks non-labor entries such as expense reports

# The TimeControl Advantage

- ✓ **Auditable Historical data**

TimeControl includes historical data on all timesheet data regardless of what changes or deletions were made in the planning system. This means that if a task is deleted or moved, the actuals are not changed

- ✓ **Track controllable edits to posted timesheet data**

TimeControl allows audited Debit/Credit changes to previous timesheets which are tracked as changes to the original timesheet

- ✓ **Automated business validation rules**

TimeControl includes unlimited automated validation Rules which allows an organization to define what makes an acceptable timesheet. This can include simple rules such as “no more than 24 hours per day” or complex rules such as “no overtime unless you are a wage employee and have done at least 8 hours of regular time today”.

# The TimeControl Advantage

- ✓ **DCAA Compliance**

TimeControl is DCAA (Defense Contract Audit Agency) compliant

- ✓ **Sarbanes-Oxley Compliance**

TimeControl is a powerful tool for Sarbanes-Oxley compliance in order to conform to SEC rules for internal software development and deployment for any company publicly traded in the US

- ✓ **Other Government requirements**

TimeControl complies also with numerous government standards including the “European Work Rules”, FMLAs and “California Work Rules” along with many others

- ✓ **Extensive Approvals**

TimeControl supports multiple levels of manual approval with each level and the path for each employee defineable at the employee level

- ✓ **Matrix Approvals**

TimeControl supports HMS Software’s unique “Matrix Approval Process for Labor Actuals™” which allows timesheet data to be approved by both line or resource managers and projects managers

[www.timecontrol.com](http://www.timecontrol.com)

# The TimeControl Advantage

- ✓ **Resource assignment options**

TimeControl supports both individual and group resource identification. Timesheet data can be sent for an individual's resource code group multiple employees into one generic resource code

- ✓ **Hierarchical display for high data volume**

TimeControl displays projects, rates and tasks in a hierarchical tree format. This allows support of a tremendous volume of data

- ✓ **Link to invoicing**

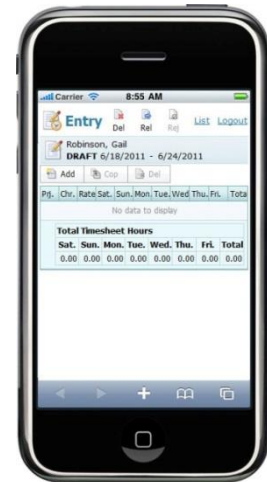

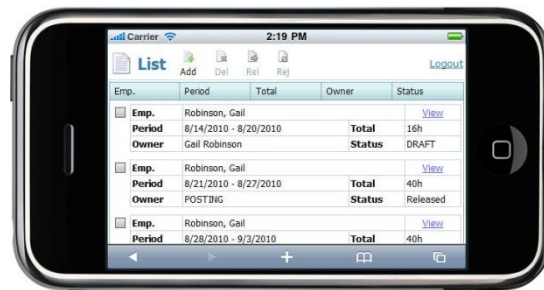

TimeControl's financial-quality data is ideally suited for invoicing and TimeControl's Link module allows output to be sent to virtually any billing system or the billing module of any major Finance system

- ✓ **Multiple project management system links**

TimeControl supports multiple project management links simultaneously. A project environment which includes both Primavera and Microsoft Project, for example, could be supported by TimeControl at the same time. End-users would simply see a list of tasks

# Smartphone / Tablet Support

- ✓ Blackberry
- ✓ iPhone
- ✓ Android
- ✓ Windows7 Mobile
- ✓ iPad

# Links to Deltek Project Management

- ✓ HMS Software is an Independent Software Vendor (ISV) Alliance partner with Deltek
- ✓ The HMS Software relationship with Open Plan and Cobra stretches back to 1984. HMS Software's first contract in 1984 included writing a custom timesheet application designed to integrate with Open Plan
- ✓ TimeControl includes direct integration with Open Plan and Cobra as well as other project management systems such as Microsoft Project and Oracle-Primavera
- ✓ Project Management and timesheet data can be integrated on a scheduled or on-demand basis
- ✓ TimeControl supports multiple project management systems and versions simultaneously
- ✓ Customizable import/export function to interface with virtually any finance or ERP system including Deltek, SAP, Oracle, PeopleSoft and Microsoft Dynamics

# Links to HR, Project Mgt and Finance

- ✓ HMS Software is a Deltek ISV partner, an Oracle Gold partner and a Silver ISV Microsoft Partner
- ✓ TimeControl includes direct integration with popular project management systems such as Microsoft Project and Project Server, Deltek Open Plan and Cobra and Primavera. You can move data on a scheduled or on-demand basis
- ✓ Supports multiple project management systems and versions simultaneously
- ✓ Customizable import/export function to interface with virtually any finance or ERP system including SAP, Oracle Financials, PeopleSoft, Microsoft Dynamics and other HR and Finance systems
